To Our Friends and Customers :

We wish to call attention that although this little booklet is much smaller in size than our catalog of last year, you will find nothing omitted excepting the illustrations, which have been dispensed with in order to make this catalog in tabloid form. We hope that the information in this little book may be of value to you and that you will find it helpful in making your selections. Please note in comparing the prices herein with other reputable seedsmen's prices, that in many cases ours average the lowest. Also consider the stock is of the highest quality our experience of 47 years in the business can obtain.

Seeds Delivered Free by Parcel Post

We will deliver free to any place within 300 miles of Syracuse by parcel post or express (our option), all vegetable and flower seeds in packets; ounces, $\frac{1}{4}$ lb., $\frac{1}{2}$ lb., 1 lb. and 2 lb. packages at the prices in this catalogue.

Our Terms are Strictly Cash with the Order. We do not send C. O. D., as the cost of collecting return charges is quite an unnecessary item of expense and the prices being given, we can conceive of no necessity to warrant goods being so sent.

How to Send Money. Remittances may be made at our risk by any of the following methods, viz.: **Postal Money Order, Draft on New York or Chicago, or Express Company's Money Orders, or cash by Registered Letter.** We accept clean postage stamps the same as cash.

The rates charged for Postal Money Orders and Express Money Orders are now so low that these are the best way to remit. We will bear the expense of sending money in either of these ways. Deduct the cost of the order from amount sent, Express Money Orders can be obtained at all offices of the principal Express Companies. They are cheap and absolutely safe.

Guarantee: Complaints made that seeds are not good, should quite as often be attributed to other causes as to the quality of the seeds. There are hundreds of contingencies continually arising to prevent the best seeds always giving satisfaction, such as sowing too deep, too shallow, in too wet or too dry soil; insects of all descriptions destroying the plants as soon as or before they appear; wet weather, cold weather, frosts, chemical changes in the seeds, induced by temperature, etc. For the above reasons it is impracticable to guarantee seeds under all circumstances.

We give no warranty, express or implied, as to description, purity, productiveness, or any other matter of any seeds we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they are at once to be returned.
